STATEMENT OF WATER DIVERSION AND USE

(This is not a Water Right)

This Statement should be typewritten or legibly written in ink and submitted to the address above.
A separate statement should be filed for each point of diversion. A duplicate copy will be returned for your file.

- A. Name of person diverting water KELLER RANCHES, LLC
 Address 8209 SHELLEY ROAD
MONTAGUE CA 96064 Telephone: () _____
- B. Water is used under: Riperian claim: _____ Pre 1914 right: _____ Other (explain) Separate Agreement
- C. Name of the body of water at the point of diversion
Oregon Slough
- Tributary to _____
- D. Point of diversion is located within Sisicayus County on Assessors Parcel # _____
 within the 1/4 of 1/4 of Section of Township Montague Range _____
 Name of works _____
- E. Do you own the land at the point of diversion? Yes NO _____ The name and address of the owner of the land is:

- F. Capacity of diversion works _____ (cfs, gpm, or gpd) Capacity of storage tanks or reservoir _____ (gallons or acre-feet)
 Type of diversion facility: Gravity Pump _____
 Method of measurement: Weir _____ Flume _____ Electric Meter _____ Estimate
- G. Enter the amount (or approximate amount) of water used each month.
 Amounts below are shown in: Gallons _____ Acre-feet _____ Other _____ *see attached*
- | Year | Jan | Feb | Mar | Apr | May | June | July | Aug | Sept | Oct | Nov | Dec | Total Annual |
|------|-----|-----|-----|-----|-----|------|------|-----|------|-----|-----|-----|--------------|
| | | | | | X | X | X | X | X | | | | 600 |
- H. Annual water use in recent years: Maximum _____ (gallons or acre-feet) Minimum _____ (gallons or acre-feet)
 Year of first use (nearly as known) _____ *see attached*
- I. Purpose of use: What is the water being used for: (example: number of acres and type of crop irrigated, average number of persons served, number of stock watered, etc.) Irrigate 120 acres - stock water and fill pond for migratory birds
- J. General description or location of place of use (example: 40 acres of pasture located 3 miles from Happyville on Alpha Road)
120 ~~acres~~ of pasture South and west of point of diversion on both sides of Oregon Slough
- K. Map: Please locate the point of diversion and place of use on a print of a USGS quad map, or make a sketch on the section grid provided on the reverse side of this form. The sketch should identify the section lines, prominent local landmarks and roads, your point of diversion, and your place of use (your house, acreage irrigated, etc.).
- L. Please answer only those questions below which are applicable to your project.

Additional copies of this form and water right information can be obtained at www.waterrights.ca.gov.

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the source of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to 1) store water for later use 2) divert water which originates in a different watershed 3) divert water released from storage, or 4) divert return flows from groundwater use.

An appropriative right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914 new appropriators have been required to obtain a permit and license from the State.

Statements of Water Diversion and Use must be filed by a riparian and pre-1914 appropriative water users. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversion, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include: (1) Statements of Water Diversion and Use, (2) Information Pertaining to Water Right in California and (3) Appropriation of Water in California.

KELLER RANCHES, LLC

Attachment to Supplemental Statement of Water Diversion and Use

Re: Questions F, G and H

Keller Ranches, LLC owns the land at the point of diversion. The amount of water available from the Oregon slough varies dramatically from year to year depending upon the annual rainfall, among other things. The normal irrigation season is from May to September of each year, again depending upon the amount of water available from the Montague Water District and the Oregon slough. Typically all cattle are removed from the property in the fall of each year and returned the following spring after the middle of April. In addition other land acquired from the same seller is irrigated via a wheel line. That water is acquired from the Montague Water District. The wheel line does not affect the property being irrigated with water taken from the Oregon slough.

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California, riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on their riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the source of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, or return flows from use of groundwater.

An appropriative right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914 new appropriators have been required to obtain a permit and license from the State.

The above discussion is general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available, including the following:

YEAR OF FIRST USE: 1947

DIVERSION

WITHIN: SE1/4 OF NW1/4 SECTION 12, T45N, R06W, MDB&M.

COMPLETE AND RETURN THIS FORM BY JULY 1, 1994.

A. Water is used under: Riparian claim _____; Pre 1914 right _____; Other (explain) _____

B. Year of first use (Please provide if missing above) _____.

C. Amount of Use - Enter the amount of water used each month. If monthly and annual use are not known, check the months in which water was used.

Amounts below are: Gallons Acre-feet (other) _____

JAN.	FEB.	MAR.	APR.	MAY	JUNE	JULY	AUG.	SEPT.	OCT.	NOV.	DEC.	TOTAL ANNUAL
1991			X	X	X	X	X	X	X	X	X	600
1992			X	X	X	X	X	X	X	X	X	600
1993			X	X	X	X	X	X	X	X	X	600

D. Purpose of Use - Specify number of acres irrigated, stock watered, persons served, etc.

Irrigation 120 acres; Stockwatering X; Domestic _____
Other (specify) fill ponds for irrigating lands

E. Changes in Method of Diversion - Describe any changes in your project since your previous statement was filed. (New pump, enlarged diversion dam, location of diversion, etc.)

F. If part of the water listed in Part C consists of reclaimed or polluted water, please indicate the annual amounts of reclaimed or polluted water in the space below.

I declare under penalty of perjury that the information in this report is true to the best of my knowledge and belief.

"Information Pertaining to Water Rights in California"
"Statements of Water Division and Use"

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include:

Statements of Water Division and Use must be filed by riparian and pre-1914 appropriative water users. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversion, and (3) assists the State to determine if additional water is available for future appropriators.

An appropriative right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914 new appropriators have been required to obtain a permit and license from the State.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, or return flows from use of ground water.

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the source of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, or return flows from use of groundwater.

An appropriative right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian users. Since 1914 new appropriators have been required to obtain a permit and license from the State.

Statement of Water Diversions and Use must be filed by riparian and pre-1914 appropriative water users. The filing of a statement (1) provides a record of water appropriated from their diversion upstream, and (3) assists the State to determine if additional use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversion, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include:

STATEMENT OF WATER DIVERSION AND USE

This statement should be typewritten or legibly written in ink.

S 1221

- A. Name of person diverting water. Paulo Clement
Address Rt. 1, Box 631, Montague, Calif 96064
- B. Name of body of water at point of diversion. Oregon Slough
Tributary to Shasta River
- C. Place of diversion S.E. 1/4 of NW 1/4 Section 17, Township 45 N, Range 6 W, Modoc Co.,
California
County, or locate it on sketch of section grid on reverse side with regard to section lines or
prominent local landmarks.
- D. Name of works Clement Oregon Slough Diversion Dam for diverting
water on East and West sides of Oregon Slough
- E. Capacity of diversion works (3) Three
- | | |
|-------------------------------|--|
| Capacity of storage reservoir | <input type="checkbox"/> acre feet per month
<input type="checkbox"/> gallons per minute
<input type="checkbox"/> gallons per second
<input type="checkbox"/> acre feet |
|-------------------------------|--|
- State quantity of water used each month in gallons or acre-feet
- | Year | Jan. | Feb. | Mar. | Apr. | May | June | July | Aug. | Sept. | Oct. | Nov. | Dec. | Total | Annual |
|------|------|------|------|------|-----|------|------|------|-------|------|------|------|-------|--------|
